Lake Preston School Starting Well 2020 Meeting

On Monday, June 29th, Lake Preston School held a Starting Well committee meeting with the main topic what the upcoming 2020-2021 school year. The idea behind the meeting was to strictly generate discussions, ideas, and prepare for the unknowns along with being as proactive as a district as we can. As superintendent, I chose a variety of staff members, board members, teachers, and coaches that serve the district in a variety of different ways and areas. Ashley Tolzin, a Horizon Healthcare medical professional, was also invited. Many questions were asked and what-if scenarios that will have to be addressed in the future. The first day of school in Lake Preston is scheduled to be on Wednesday, August 19, 2020 and the plan at this point is to follow through with this current date.

Although, there are still many unknowns at this point, we wanted to start generating discussions and ideas on how we can have students in-person education with the option of providing distance learning for those parents and students who opt not to send their child(ren) into the school building. In-person or distance learning plans and details have not been set officially but this is the direction that many districts are moving towards.

The Lake Preston School will be sending out surveys to parents in the near future to gain a better understanding of how the parents are currently feeling with our upcoming school year and what concerns they may have. Although an official plan has not been approved or implemented, we feel these meetings will allow us to move forward in providing the best education for our students along with keeping our students, staff members, and community safe. We are hoping to have more insight of what the 2020-2021 school year looks like in mid-July.

If you have any questions or concerns, please contact the Lake Preston School.

I hope you are enjoying your summer break! Stay safe over the upcoming 4th of July holiday weekend!

Best regards,

Mr. Dana Felderman
Superintendent
