My kids will be masked at least until they are vaccinated and we will continue to follow CDC guidance. Will the school and teachers encourage my kids to stay safe even if they don't agree and have politicized the issue?	Masking once minimum community spread is reached in Kingsbury County. Hand sanitizer widely available and accessible. Sick kids need to be isolated and sent home.	No	1	The cases in the school last year could have been prevented or limited with mask use.

Nope	Love the June 1st back to normal. Let's keep it that way.	Larger weight room to allow for more spacing between athletes :)	9	Feel we can lax on some of the staff spending most of the day watching video feeds from the school cameras. If there is an issue, just rewind and watch. Don't need several staff 'watching'. Relax we got good kiddos we don't need to make them, and the other staff, feeling as if their every move is critiqued.
