

# LAKE PRESTON SCHOOL DISTRICT

## ASBESTOS ANNUAL REPORT

August 2021

Dear Parents & Staff Members:

An asbestos management plan for our facilities was developed and includes this notification letter, a set of plans and procedures designed to minimize the disturbance of asbestos-containing material, and plans for regular surveillance of the asbestos-containing materials.

A copy of the asbestos management plan is available for your inspection in our administrative office during regular office hours. Inquiries regarding the plan should be directed to the Designated Person (Dan Duenwald). As response actions and preventative measures are conducted or completed, and at least annually, you will be notified of any changes in the amount and condition of asbestos-containing material in the school building.

The asbestos-containing building materials are required to be kept under surveillance. The Designated Person Dan Duenwald will conduct the semi-annual surveillances. In July of 2021, Dan Duenwald SD License # 8520 inspected the school building as required by A.H.E.R.A. The Lake Preston School District was found to be in compliance with A.H.E.R.A. 763.94 regulations.

We plan on taking whatever steps are necessary to insure your children and our employees have a healthy, safe environment in which to learn and work. The remaining asbestos-containing materials pose no health threat.

Dan Duenwald, Designated Person

Dana Felderman, Superintendent
